

[BeginText]

This is in response to the letter dated January 18, 2007 egarding the amended October Quarterly Report.

There was an increase in the amount of disbursements reported on the amended report from those included in the original report because contributions to candidates were not kept with other disbursements and were as a result, inadvertently omitted. Once the Committee discovered the omission days later, we immediately acted to file an amended report. The Committee has implemented added procedures to bettter ensure items are adequately reported when received.
